LOCAL

PARTNERSHIPS

QuadReal has successfully partnered with leading local developers in Global Cities across North America, Europe and Asia.

In Canada, QuadReal looks for partners accomplished in property development and urban densification to help unlock opportunity. QuadReal commits to bringing our partners the strength of a respected global real estate leader, our breadth and depth of experience, and the financial resources to maximize results and create models for the future.

Our success in partnering derives from the respect we have for our co-collaborators—whether they are municipalities, developers or community members—and for the outcomes we achieve together.

We continue to seek new and established partners that offer the potential for scalable, long-term relationships.
